Testimonial

To Whom It May Concern:

For the past 9 months BevWizz Australia has been our principal refrigeration and equipment service provider.

BevWizz Australia was brought into the business to provide ongoing support to our business and franchise network, which covered equipment supply, service, breakdowns and innovation.

BevWizz Australia to date has provided a professional service in aspects of our business and through Cathy Goodwin the business manager who was assigned to our Company and part of the BevWizz team, they have 'come up to the mark' and we count them now as an integral part of our team.

"Well done to the BevWizz team"

Yours faithfully

Darrin Greenaway
National Development Manager
