To Whom It May Concern:

My BevWizz Australia business manager has asked me if I would just put down here a few comments about our commercial relationship and appraise the level of service and innovation we receive.

I am happy to do so.

My company's contact with BevWizz Australia dates from 2003 in all some 4 years.

During that period I have come to rely on the excellent service and innovative ideas which have been provided.

For a relatively small Supplier : Partner BevWizz does think big in respect to making suggestions which have improved our volume and profit over the term.

The team and especially Cathy have been a valuable addition to our own management.

We hope that both companies will continue to grow and prosper through shared objectives.

Yours faithfully

Matt Lennox
Joint Managing Director
